

# JULIAN DAMASHEK, PHD

Utica University • Biology Department  
1600 Burrstone Road, Utica, NY 13502  
[judamash@utica.edu](mailto:jdamash@utica.edu) • 315-223-2326 • [www.aquajulian.com](http://www.aquajulian.com)

## Utica University

Assistant Professor of Biology, August 2019 to present  
*On parental leave, Fall 2020 semester*

## EDUCATION

### University of Georgia

Postdoctoral research associate, September 2016 to July 2019  
Advisors: Tim Hollibaugh (Marine Sciences), Liz Ottesen (Microbiology)

### Stanford University

Ph.D. in Earth System Science, September 2016  
Advisor: Chris Francis

### Amherst College

B.A. (*Summa Cum Laude* with distinction) in Biology, May 2009  
Thesis advisor: Rachel Levin

## RESEARCH OVERVIEW: MOTIVATING QUESTIONS

- What drives patterns in **nitrogen cycling** rates and associated **microbial communities** in aquatic ecosystems?
- What is the ecology and physiology of **novel aquatic archaea**?
- How does human activity affect **antibiotic resistance** in aquatic environments?

My group uses techniques from microbial ecology, 'omics, cultivation-based microbiology, and isotope geochemistry to explore these questions.

#### FUNDING

“Understanding gut-microbiome interactions following mass deworming against soil-transmitted helminths (STHs) among young Ethiopian schoolchildren.” Co-PIs: Ken Belanger (Colgate University), Bineyam Taye (Colgate University), Zeleke Mekonnen (Jimma University, Ethiopia). Picker Interdisciplinary Science Institute at Colgate University, 2020-2023, \$149,000.

## TEACHING AT UTICA

Average  $\pm$  S.D. weekly contact hours per semester:  $14.6 \pm 2.4$

**General Biology (including Lab)**

**Research Methods I and II**

**Fundamentals of Ecology (including Lab)**

**Aquatic Biology (including Lab)**

**Molecular Biology Lab**

**Bioinformatics** (Selected topics course)

**Antibiotic Resistance** (Selected topics course)

**Independent Studies** on “Animal Microbiome Research,” “Aquatic Field Biology,” and “Microbial Bioinformatics”

**Fundamentals of Biology (including Lab; non-majors biology course)**

**First-Year Seminar** for incoming biology and animal behavior majors

## UNDERGRADUATE MENTORSHIP

**Tara Smith** Utica University '23 (Spring 2023 to present)

Testing nitrogen isotopic methods using MALDI-TOF mass spectrometry.

**Isabella Raux** Utica University '23 (Fall 2021 to present)

Dog-owner fecal microbiomes using 16S rRNA amplicon data.

- Accepted to Cornell Veterinary School (starting Fall 2023).

**Brieann Lohmann** Utica University '23 (Summer 2021 to present)

Nitrogen-cycling microbes and fecal source tracking in the Mohawk River.

**Tyler LaFramboise** Utica University '23 (Spring 2022 to present)

Computational 'omics research studying metagenome-assembled genomes from freshwater creeks.

**Alexandra Marsh** Utica University '23 (Spring 2022 to Fall 2023)

Water quality research in the Mohawk River and Oneida Lake, studying phytoplankton and N cycling.

**Tanya Kuts** Utica University '22 (Fall 2021 to Spring 2022)

Urea and ammonium cycling in Oneida Lake.

**Kristina Kuts** Utica University '24 (Spring 2022 to Summer 2022)

Nitrite and nitrate cycling in Oneida Lake.

**Trinity Howell** Hampton University '22 (Summer 2021)

Fecal source tracking in estuary waters using 16S rRNA amplicon data. Stipend funded by the [National Summer Undergraduate Research Project \(NSURP\) 2021 program](#).

**Nikki Pickett** Utica University '21 (Fall 2020 to Spring 2021)

Shotgun metagenomic analysis of antibiotic resistance genes in San Francisco Bay.

**Matt Fedullo** Utica University '20 (Spring 2020)

Antibiotic resistance in the Mohawk River using PCR.

- Currently: accepted to a Physician Assistant program at Marrywood University (starting Fall 2023)

**Sammet Braun** *Utica University '20 (Spring 2020)*

Diversity and transcription of ammonium uptake genes using metatranscriptomic data.

- Currently: laboratory technician, AGRANA Fruits US.

**Arijana Dautovic** *Utica University '23 (Spring 2020)*

Ammonia-oxidizing microbes in the Mohawk River.

**Carrilynn Garrett** *Utica University '23 (Spring 2020)*

Nitrogen biogeochemistry in the Mohawk River.

**Hailey Goldberg** *University of Georgia '20 (Summer 2018)*

Analysis of *Thaumarchaeota* in freshwater metagenomes.

- Currently: Ph.D. student at Weill Cornell Graduate School of Medical Sciences.

**Aimée Okotie-Oyekan** *University of Georgia '17 (Fall 2016 to Summer 2018)*

Abundance of Marine Group II *Euryarchaeota* in coastal Georgia waters and nitrifiers in coastal Antarctic waters. Co-author on a [manuscript published in \*Limnology and Oceanography\*](#) and another [published in \*ISME Communications\*](#).

- Currently: M.S. student, University of Oregon Environmental Studies Program.

**Tynan Challenor** *Stanford University '17 (Summer 2014 to Summer 2016)*

Biogeochemistry and microbial ecology of nitrification in Artesian Slough and the Sacramento River. First-author poster presentation, 2014 AGU Fall Meeting; completed honors thesis (2017) studying ammonia oxidizers in the Sacramento River.

- Currently: U.C. Berkeley Labor Center.

**Aubriana Menendez** *Stanford University '17 (Summer 2014)*

Microbial ecology of Artesian Slough (San José, CA). Co-author on poster presentation, 2014 AGU Fall Meeting.

- Currently: UX specialist at Change Healthcare.

**Kade Pettie** *Amherst College '15 (Summer 2013, 2014)*

Microbial ecology of ammonia oxidizers in Arctic Sea waters. Co-author on manuscript [published in \*Aquatic Microbial Ecology\* \(2017\)](#).

- Currently: Ph.D. student, Stanford University Department of Biology.

**Kofi Christie** *Morehouse College '14 (Summer 2013)*

Biogeochemistry of nitrogen cycling in creeks and sloughs throughout the Baylands Nature Preserve (Palo Alto, CA).

- Currently: [Assistant Professor of Environmental Engineering](#), Louisiana State University.

**Yari Greaney** *Stanford University '15 (Fall 2012 to Spring 2013)*.

Microbial ecology of ammonia oxidizers in San Francisco Bay sediments.

- Currently: Program Manager for Local Politics and Environmental Justice at [Preston-Werner Ventures](#).

**Samuel Miller** *Amherst College '10 (Summer 2009 to Spring 2010)*

Bacterial diversity of natural gas well water in the New Albany Shale. First-author poster presentation, 2010 GSA Northeastern/Southeastern Joint Section Meeting.

- Currently: postdoctoral researcher, University of Chicago Department of Medicine.

## FELLOWSHIPS AND AWARDS

### **Harold T. Clark Summer Fellowship Award/Research Grant**

Utica University, Summer 2021 (\$2,300)

### **Early Career Travel Award**

ASLO Aquatic Sciences Meeting (2019; \$500)

CERF Biennial Conference (2017; \$300)

### **Stanford-USGS Graduate Fellowship**

Stanford University (2014–2015 academic year)

### **Oral Presentation Award**

ASLO Aquatic Sciences Meeting (2015)

Northeast Undergraduate Research and Development Symposium (2009)

### **McGee Research Grant**

Stanford University (2014, \$2,200; 2011, \$3,800)

### **John Mason Clarke 1877 Fellowship in Paleontology and Geology**

Amherst College (2011–2012 academic year, \$3,300; 2010–2011 academic year, \$5,200)

### **Oscar E. Schotte Award & Scholarship Prize**

Amherst College Department of Biology (2009)

### **Funded Summer Research Internship**

Five College Coastal and Marine Sciences Program (Summer 2007)

### **William C. Young Prize**

Amherst College Department of Biology (Summer 2007)

### **Howard Hughes Medical Institute Summer Fellow**

Amherst College (Summer 2006)

## PROFESSIONAL AND INSTITUTIONAL SERVICE

### **Utica University**

- Curriculum Committee (8/2021 – present)
- Strategic Advisory Committee on DEI (2-year term: 11/2020 – 5/2021)
- Asa Gray Seminar Series coordinator (2/2022 – present)
- Academic Planning Task Force on Academic Information Management (12/2019 – 3/2020)

### **Environmental Consortium Liaison** (11/2021 – present)

### **Social Media Team Lead (Communications Committee)**

*Coastal and Estuarine Research Federation (CERF; Fall 2017 to Fall 2019)*

Coordinate social media outreach, develop strategies and standard operating procedures for social media team and interactions with CERF headquarters and other committees.

### **Conference Attendee Experience Committee Member**

2019, 2017 Coastal & Estuarine Research Federation (CERF) Biennial Conference (November 2019 and 2017)

Co-leader of social media committee.

### **Conference Session Organizer**

2017 Coastal & Estuarine Research Federation (CERF) Biennial Conference (November 2017)

Organized session: “Microbial Communities and the Dynamics and Resilience of Ecosystem Function”

(<https://cerf.confex.com/cerf/2017/webprogrampreliminary/Session1364.html>).

2016 Ocean Sciences Meeting (February 2016)

Organized session: “Nitrogen at the Interface: The N-Cycle across Physical and Disciplinary Boundaries”

(<http://agu.confex.com/agu/os16/preliminaryview.cgi/Session9274>).

2014 American Geophysical Union (AGU) Fall Meeting (December 2014)

Organized judges for student presentations for the “Marine Microbial Genomics” session

(<https://agu.confex.com/agu/fm14/webprogrampreliminary/Session3363.html>).

### **Graduate Student Consultant**

Stanford University Center for Teaching and Learning (Autumn 2013 to Winter 2015)

### **Peer Reviewer**

Funding agencies: NSF OCE (Chemical Oceanography, ad hoc), Maryland Sea Grant (ad hoc).

Journals: *Applied & Environmental Microbiology*, *Aquatic Microbial Ecology*, *Aquatic Sciences*, *Biogeosciences*, *Environmental Microbiology*, *Estuaries and Coasts*, *Freshwater Science*, *Frontiers in Marine Science*, *Frontiers in Microbiology*, *ISME Journal*, *Journal of Geophysical Research: Biogeosciences*, *Limnology & Oceanography*, *Microbial Ecology*, *Microbiome*, *mSphere*, *mSystems*, *PeerJ*, *Science of the Total Environment*, *Water Resources Research*.

### **INVITED SEMINARS**

“Studying freshwater nitrifier ecology using ‘omics, from global patterns to the Finger Lakes.” *Cornell University, Microbiology Department Seminar Series*, 3/16/23.

“Spatial and seasonal dynamics of nitrogen in Oneida Lake and the Mohawk River.” *Cornell Biological Field Station, Summer Seminar Series*, 7/20/22.

“Determining global patterns of freshwater thaumarchaeal diversity by mining hundreds of metagenomes.” *Archaea Power Hour*, 9/14/21.

“Using publicly-available ‘omics data to unravel the ecology of freshwater archaea, from the Amazon River to Central New York lakes.” *Asa Gray Seminar Series, Utica University*, 10/21/19.

“Understanding nitrogen uptake in the ocean using metatranscriptomics, or: How I learned to stop worrying and love the command line.” *Amherst College Department of Biology*, 3/5/18.

“Using microbial and biogeochemical techniques to investigate hotspots of aerobic nitrogen cycling in San Francisco Bay.” *University of Georgia Marine Sciences Seminar Series*, 11/7/16.

“Nitrification from the Pacific Ocean to the Sacramento River: Do distinct microbial communities affect biogeochemical nitrogen cycling in a large urban estuary?” *Stanford University Seminar in Prokaryotic Molecular Biology*, 11/16/15.

### CONFERENCE ORAL PRESENTATIONS

(†designates undergraduate mentee)

**Damashek J.**, A.O. Okotie-Oyekan†, N.J. Wallsgrove, B. Bayer, G.J. Herndl, B.N. Popp, and J.T. Hollibaugh. “Field rates and physiological mechanisms of polyamine-N oxidation by marine *Thaumarchaeota*.” *2019 Aquatic Sciences Meeting*, 2/25/19 (San Juan, Puerto Rico). **Early Career Travel Award recipient.**

**Damashek J.**, B.M. Satinsky, H.V. Goldberg†, S. Sharma, J.P. Payet, B.C. Crump, J.T. Hollibaugh, and M.A. Moran. “Targeted analysis of ’omics data reveals the prevalence of *Nitrosotenuis* spp. *Thaumarchaeota* in low-latitude freshwater ecosystems.” *2018 Southeastern Branch Annual Meeting, American Society for Microbiology (ASM)*, 12/1/2018 (Atlanta, GA).

**Damashek J.**, P.J. Kearns, J.L. Bowen, K.L. Casciotti, and C.A. Francis. “Relating ammonia oxidizer diversity to nitrification throughout the northern San Francisco Bay water column.” *2017 Coastal and Estuarine Research Federation (CERF) Biennial Conference*, 11/8/17 (Providence, RI). **Early Career Travel Award recipient.**

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Turbid bottom waters and ammonium-rich freshwaters as nitrification hotspots in a large urban estuary (San Francisco Bay, CA).” *2015 American Geophysical Union (AGU) Fall Meeting*, 12/18/15 (San Francisco, CA).

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Relating ammonia oxidizer communities and gene expression to nitrification across diverse San Francisco Bay waters.” *2015 Coastal and Estuarine Research Federation (CERF) Biennial Conference*, 11/11/15 (Portland, OR).

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Linking ammonia-oxidizing microbial communities to nitrification rates across the steep gradients of San Francisco Bay (CA, USA) waters.” *2015 Aquatic Sciences Meeting*, 2/24/15 (Granada, Spain). **Outstanding Student Presentation Award recipient.**

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Microbial ecology and biogeochemical impacts of ammonia-oxidizing microbes in San Francisco Bay waters.” *2014 California Estuarine Research Society Fall Conference*, 9/27/14 (Bodega Bay, CA).

**Damashek J.**, and C.A. Francis. “Population dynamics of ammonia-oxidizing archaea and bacteria during estuarine phytoplankton blooms: How fierce is the fight for ammonium?” *2014 Ocean Sciences Meeting*, 2/24/14 (Honolulu, HI).

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Nitrification and ammonia-oxidizing microbial communities in the turbid, nutrient-replete waters of San Francisco Bay (CA).” *2013 Coastal and Estuarine Research Federation (CERF) Biennial Conference*, 11/7/13 (San Diego, CA).

**Damashek J.**, S.E. Miller†, M.F. Kirk, A.M. Martini, S.T. Petsch, J.C. McIntosh, and M.E. Schlegel. “Microbial community structure and geochemistry of the New Albany Shale (Illinois Basin) and its potential to produce biogenic methane.” *2010 Goldschmidt Conference*, 6/17/10 (Knoxville, TN).

**Damashek J.**, J.S. Miller, and R.A. Levin. “Phylogenetics of Chinese *Lycium* (Solanaceae).” *2009 Northeast Undergraduate Research and Development Symposium*, 3/28/09 (Biddeford, ME). **Oral Presentation Award recipient.**

### CONFERENCE POSTER PRESENTATIONS

(†designates undergraduate mentee)

**Damashek J.**, B.K. Lohmann†, M.J. Fedullo†, I. Hewson, and M.L. McCormick. “The invisible biology of freshwater: Urban and rural land use is reflected in the microbial communities of the Mohawk River and nearby freshwater systems.” *Mohawk Watershed Symposium 2023*, 3/17/23 (Schenectady, NY).

**Damashek J.**, N.I. Pickett†, and T.D. Howell†. “Tracing fecal contamination and antimicrobial resistance in rivers to link environmental science, community health, and public policy.” *Institute for the Study of Integrative Healthcare 2022 Conference*, 9/20/22 (Utica, NY).

**Damashek J.** “Divining the ecology of freshwater *Thaumarchaeota* using hundreds of metagenomes collected across the globe.” *International Conference on Nitrification and Related Processes (ICoN7)*, 7/21/21 (virtual, hosted by Utah State University).

**Damashek J.** “Divining the ecology of freshwater *Thaumarchaeota* using hundreds of metagenomes collected across the globe.” *Bioinformatics Virtual Coordination Network 2021 Conference*, 6/11/21 (virtual, hosted by the University of Southern California). [See poster here!](#)

**Damashek J.**, A. Dautovic†, and C. Garrett†. “Relating microbial diversity to nitrogen cycling in the Mohawk River and diverse freshwater ecosystems.” *Mohawk Watershed Symposium 2020* (Schenectady, NY); *postponed due to COVID-19*.

**Damashek J.**, N.J. Wallsgrove, B. Bayer, G.J. Herndl, B.N. Popp, and J.T. Hollibaugh. “Oxidation of polyamine nitrogen by *Thaumarchaeota*-dominated mixed communities and *Thaumarchaeota* isolates from the coastal ocean.” *Fifth International Conference on Nitrification and Related Processes (ICoN5)*, 7/26/17 (Vienna, Austria).

**Damashek J.**, B. Bayer, G.J. Herndl, B.N. Popp, N.J. Wallsgrove, and J.T. Hollibaugh. “Oxidation of polyamine nitrogen by marine *Thaumarchaeota* in the coastal ocean and the laboratory.” *2017 Southeastern Biogeochemistry Symposium*, 4/1/17 (Athens, GA).

**Damashek J.**, T. Challenor†, K.L. Casciotti, and C.A. Francis. “Nitrification from the Pacific Ocean to the Sacramento River: Do distinct microbial communities affect biogeochemical nitrogen cycling in the waters of a large urban estuary?” *2016 Ocean Sciences Meeting*, 2/22/16 (New Orleans, LA).

**Damashek J.**, T. Challenor†, K.L. Casciotti, and C.A. Francis. “Factors influencing nitrification rates and ammonia-oxidizing microbes throughout the San Francisco Bay estuary.” *2015 Young Environmental Scholars Conference*, 12/2/15 (Stanford, CA).

**Damashek J.**, T. Challenor†, K.L. Casciotti, and C.A. Francis. “Biogeochemical effects of shifts in ammonia-oxidizing microbial community structure and gene expression in the waters of Suisun Bay and the Sacramento River.” *2015 State of the San Francisco Estuary Conference*, 9/17/15 (Oakland, CA).

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Partitioning nitrification between specific archaeal and bacterial clades in a large, nitrogen-rich estuary (San Francisco Bay, CA).” *2014 American Geophysical Union (AGU) Fall Meeting*, 12/16/14 (San Francisco, CA).

**Damashek J.**, K.L. Casciotti, and C.A. Francis. “Can San Francisco Bay ‘filter’ nitrogen between the land and the sea? The microbiology and biogeochemistry of nitrification in estuary waters.” *2014 Bay-Delta Science Conference*, 10/28/14 (Sacramento, CA).
